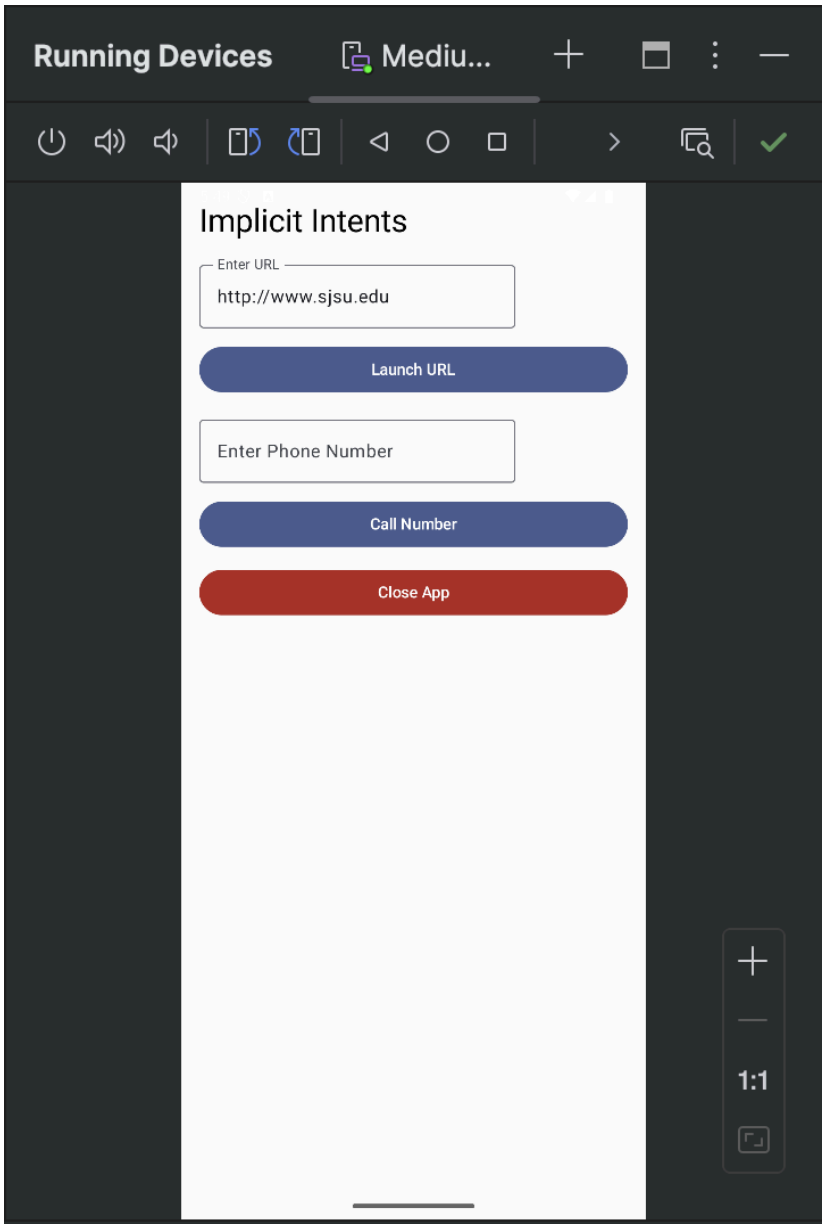
Implicit Intent - WebLinkAndPhoneCallApp

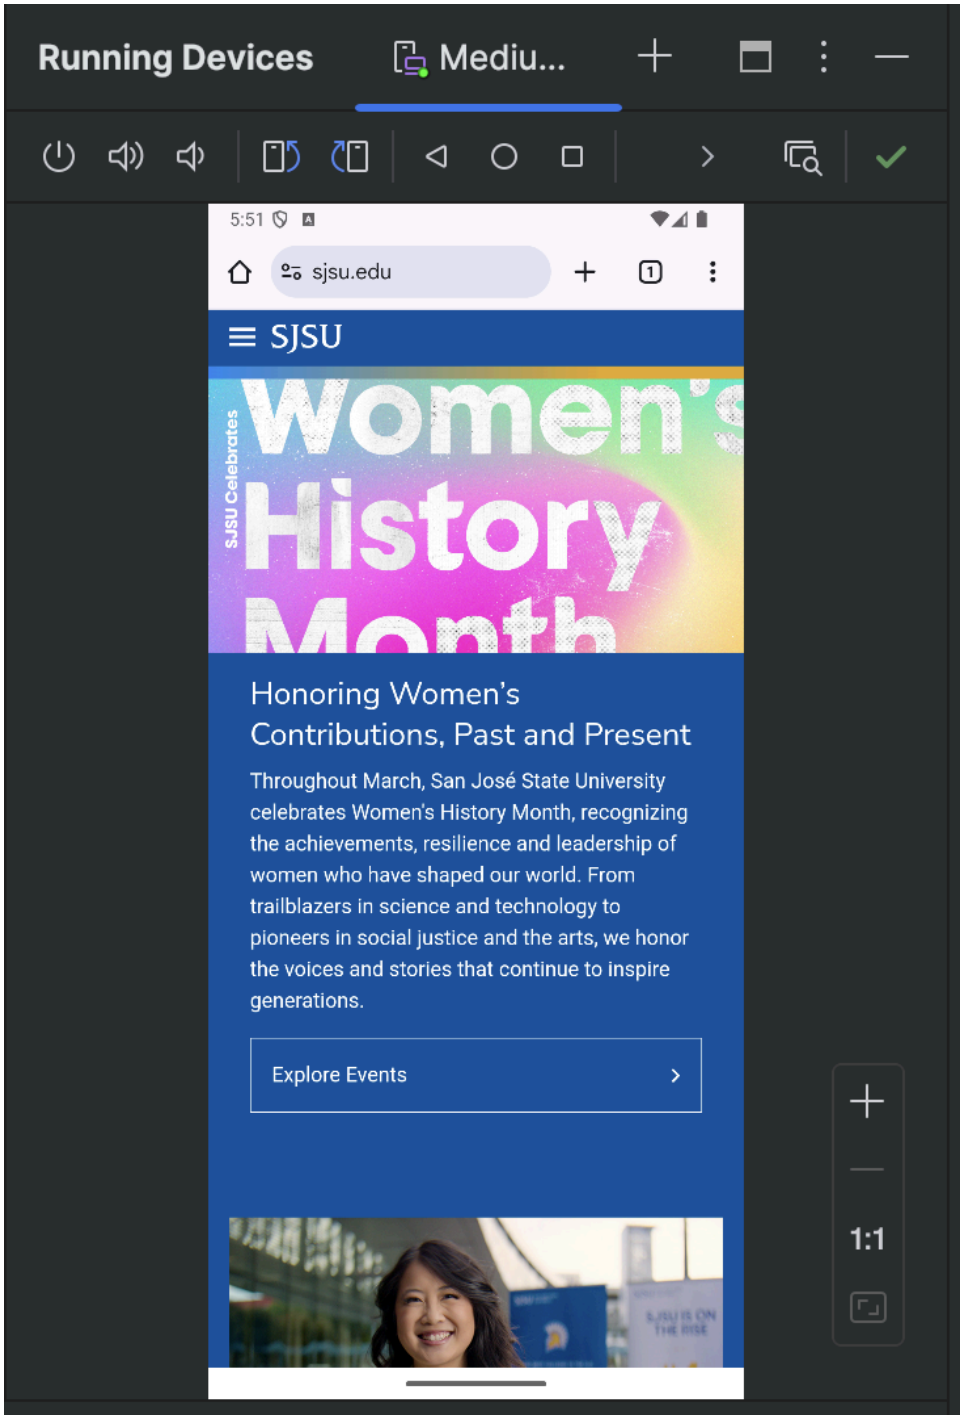
Name: Ananya Praveen Shetty
Date: 03/15/2025

Task : the goal of the assignment is to apply implicit intent concepts and invoke web link & phone calls.

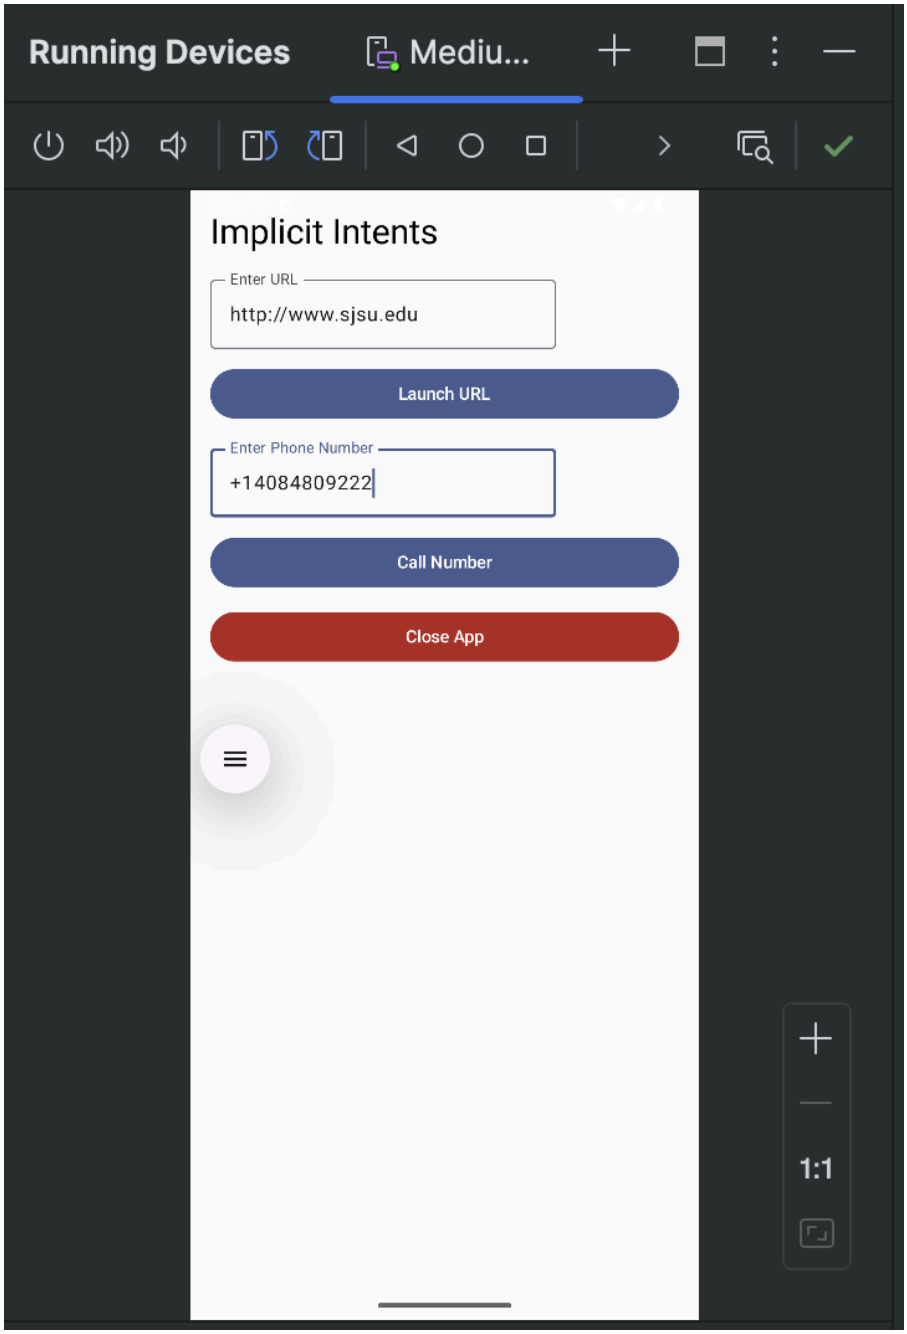
Implicit intents main page



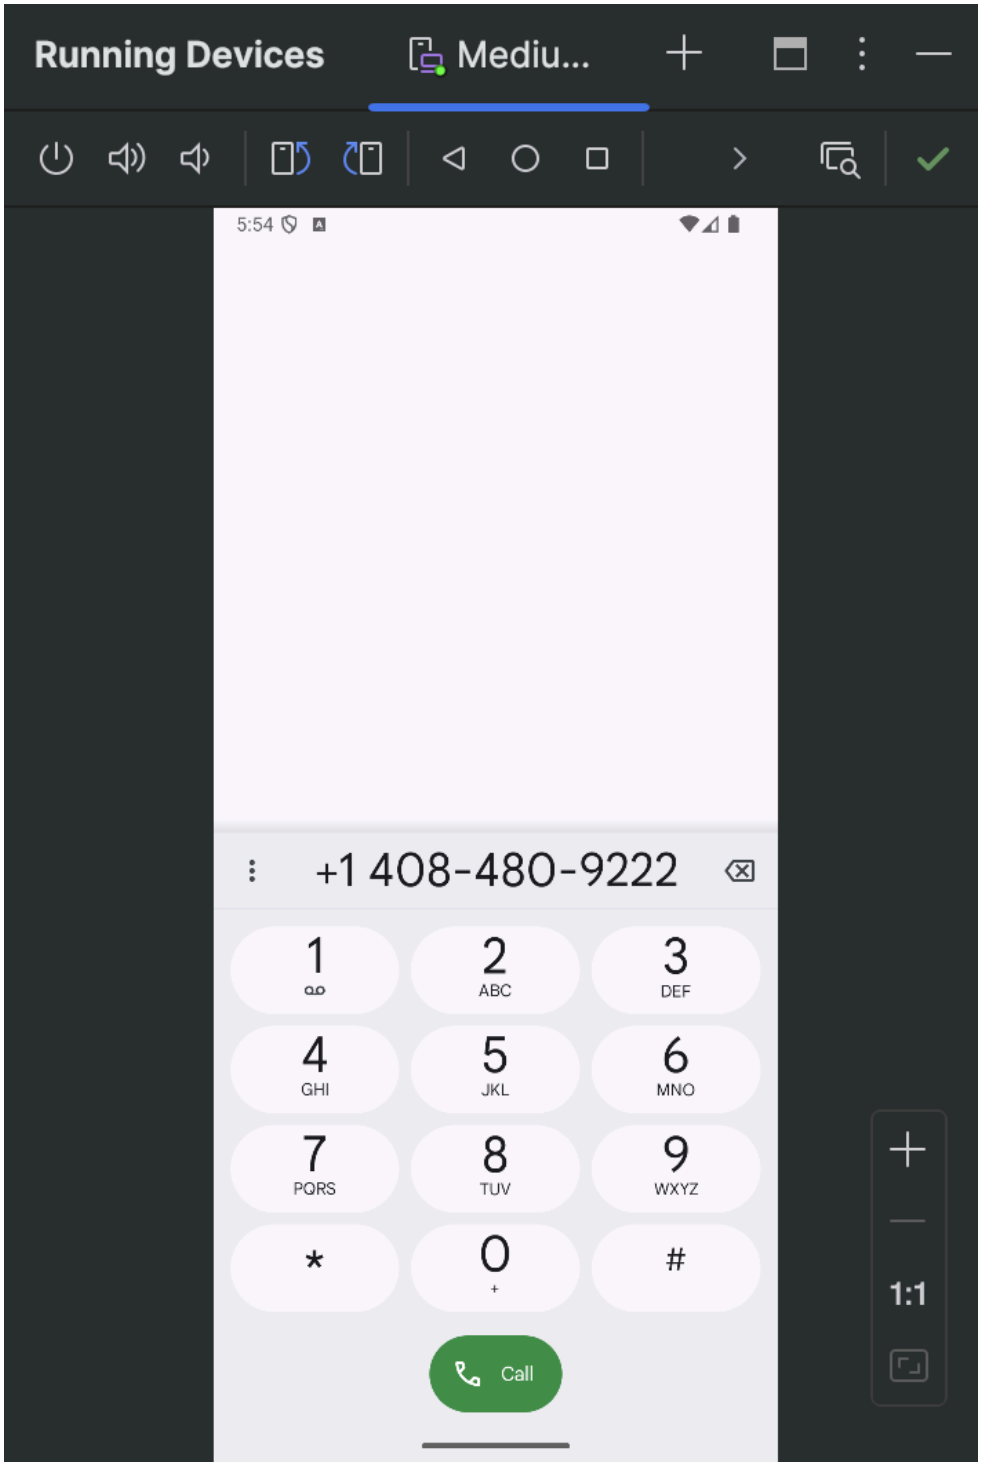
Clicked on Launch URL



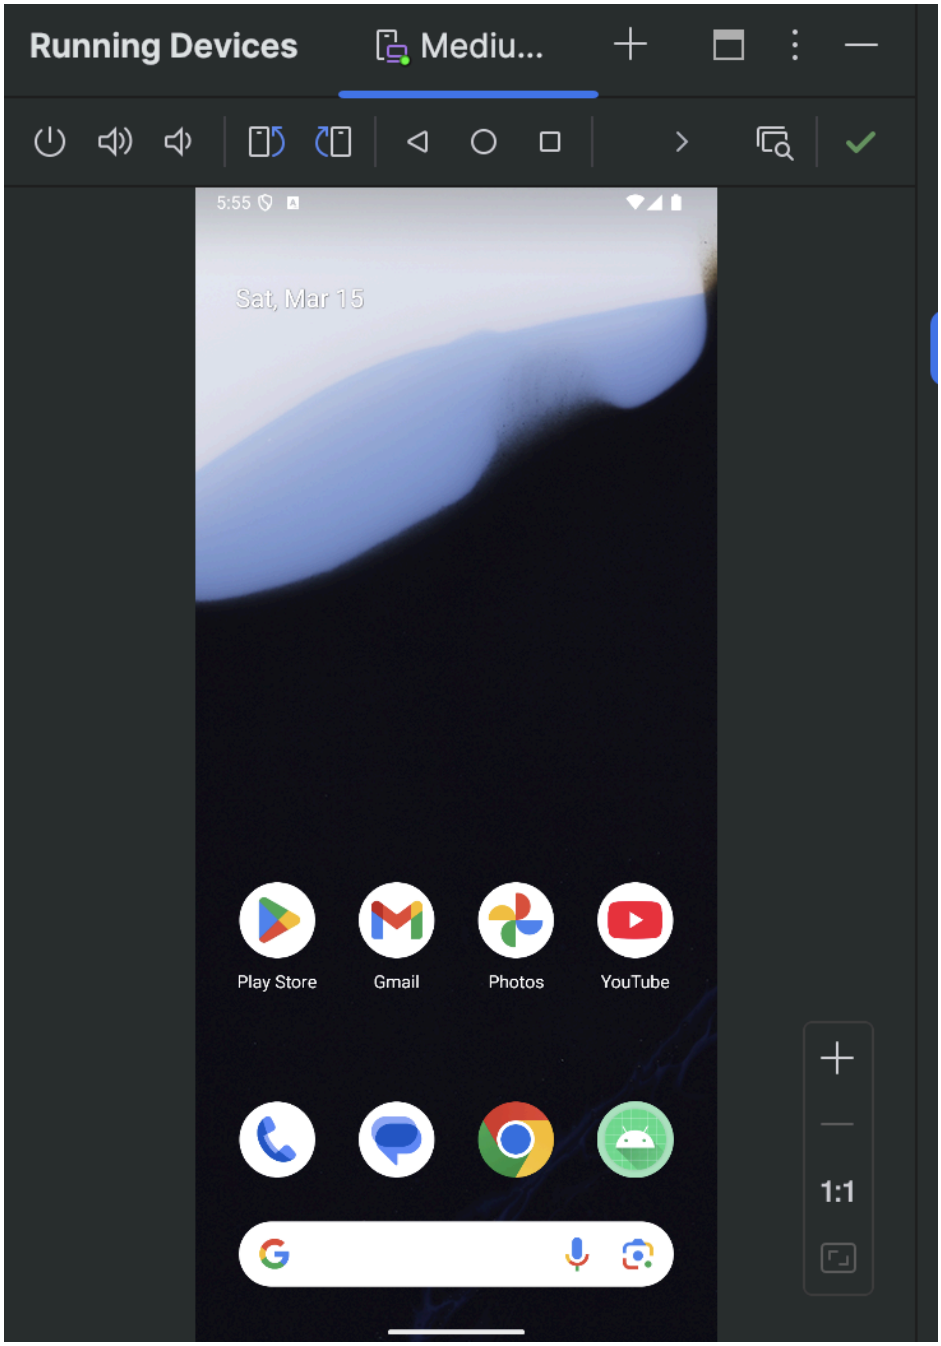
Type a particular phone number you would like to dial



The application takes us to the contact section of our android phone and pre populates the number



Finally we can click on the close button to close the application



Github link for the assignment:
